Jodi Orm

Jodi Orm, MSN, RN, CNE is a Certified Nurse Educator who is focused on creating and discovering new technologies that can be used to enhance the learning process. She is founder and principal consultant of eNurseEd, LLC. Her tenure at Lake Superior State University in Sault Ste. Marie, Michigan included Assistant Professor of Nursing and Director of Simulation. She was instrumental in the fundraising efforts and initial development of simulation education at LSSU. She has also established the Nursing Education Consultant (NEC) program for Wolters Kluwer, Inc. which provides nurse educators a mentor and peer-to-peer training support system when tackling the integration of new digital products into nursing curricula. In her current role as a full-time nursing education consultant, she has shared her educational philosophy and passion for teaching with many faculty throughout the United States, Canada, China, and Australia. Jodi's ultimate goal is to empower her

Please go to www.mcnea.org for more information about the MCNEA organization and its work to improve the education of nurses in the State of Michigan.

Who Should Attend?

This conference is designed for nursing staff, educators, preceptors, managers, administrators, and others involved in healthcare.

Educational Objectives/Outcomes

After participating in this learning activity, participants will be able to:

- Differentiate the benefits and purpose of summative assessment versus formative.
- Compare strategies to enhance self-directed learners in your classroom, simulation, and/or clinical settings.
- Identify at least three effective methods of formative assessment used in nursing education that creates an environment of active learners.
- Discuss alternative styles of teaching to enhance learning.
- Apply new knowledge to implement an active learning classroom.
- Discover how concept maps, reverse case studies, electronic health records, and other concrete tools can enhance your teaching and improve student-learning outcomes.
